SAFE, SIMPLE, SECURE

Information Governance without the struggle.

Not an Agenda.....

Your Needs and Wants

- Where are we at in the life of your OpenText systems? Years, users, adoption etc.?
- How many here use both Fastman and AnswerModules?
- How many use one but not the other?
- How many use one Fastman product?
- Who is actively looking at or deploying AI initiatives?
 - Generally across the organisation
 - Within or involving your OpenText repository?
- Any other topics that come to mind that we can address today?

The World We Live In

- AI sets the high-bar for Information Governance
- It's early days, AI / IG is increasing in relevance
- The OpenText Content Management platform is perfectly positioned to address this
- Where Fastman and AnswerModules can work together to address these needs
- Specific use cases via demo and interactive discussion

Fastman Management Suite

Permissions Manager

Manage Permissions and minimize the risk of security breaches

Permissions Manager for Outlook

Confidently share links to secure documents

Access Manager

Control access to specific functions and control license overrun

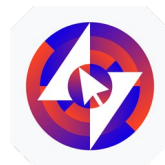

Time-based Access

Grant access for a limited period

Bulk Data Manager

Self-service solutions for import and bulk update of files and metadata.

NEW! Bulk Data Manager for Core

Extend all the benefits of Bulk Data Manager to your Core Content Management

Bridge Connector

Orchestrate data movement and update processing

Extract Tool

Extract content and metadata quickly in only a few clicks.

Demonstration

Demo Wrap and Recap

Bulk Data Manager

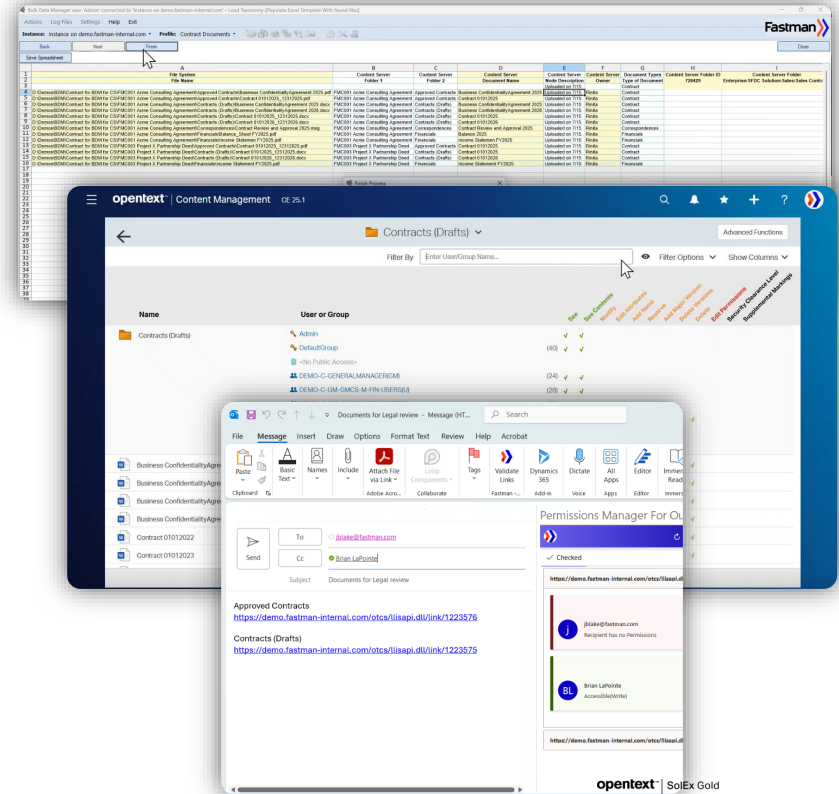

1. Load Taxonomy - consolidate external contract documents to business workspaces integrated with Extended ECM for SFDC
2. Update Attributes - apply RM classifications in bulk from a content server saved search

Permissions Manager

3. Remove public access and update owner
4. Replace user / group - fix a group's permissions automatically created by the SFDC integration

Permissions Manager for Outlook & Time-Based Access

5. Share document links with legal department recipients
6. Grant access to legal users that automatically expires
